2. Get Crosswalk Schema

Endpoint

```
GET {{base_url}}/api/external/crosswalks/{crosswalkId}/schema
```

Example

```
GET {{base_url}}/api/external/crosswalks/86/schema
```

Sample Response

```
{
  "success": true,
  "data": {
    "crosswalkId": 86,
    "crosswalkName": "Testing CW",
    "sourceSystem": {
      "id": 133,
      "name": "Testing DS1",
      "typeId": 80,
      "typeName": "Emp 50 records",
      "fields": [
        {
          "id": 566,
          "name": "Emp ID",
          "dataType": "number",
          "isPrimaryKey": true
        },
        {
          "id": 567,
          "name": "Emp First Name",
          "dataType": "string",
          "isPrimaryKey": false
        },
        {
          "id": 568,
          "name": "Emp Last Name",
          "dataType": "string",
```

```
          "isPrimaryKey": false
        }
      ]
    },
    "targetSystem": {
      "id": 134,
      "name": "Testing DS2",
      "typeId": 80,
      "typeName": "Emp 50 records",
      "fields": [
        {
          "id": 566,
          "name": "Emp ID",
          "dataType": "number",
          "isPrimaryKey": true
        },
        {
          "id": 567,
          "name": "Emp First Name",
          "dataType": "string",
          "isPrimaryKey": false
        },

        }
      ]
    }
  },
  "timestamp": "2025-11-19T11:14:21.665Z"
}
```

---

3. Get All Datasets

Endpoint

```
GET {{base_url}}/api/external/datasets
```

Sample Response

```
{
  "success": true,
  "data": [
    {
      "id": 137,
      "name": "DA1",
      "description": "",
      "typeId": 80
    },
    {
      "id": 136,
      "name": "DA DS",
      "description": "",
      "typeId": 80
    },
    {
      "id": 135,
      "name": "QA DS",
      "description": "",
      "typeId": 80
    }
  ],
  "timestamp": "2025-11-19T11:15:49.238Z"
}
```

---

4. Get Dataset Schema

Endpoint

```
GET {{base_url}}/api/external/datasets/{datasetId}/schema
```

Example

```
GET {{base_url}}/api/external/datasets/133/schema
```

Sample Response

```
{
  "success": true,
```

```
  "data": {
    "datasetId": 133,
    "datasetName": "Testing DS1",
    "typeId": 80,
    "typeName": "Emp 50 records",
    "fields": [
      {
        "id": 566,
        "name": "Emp ID",
        "dataType": "number",
        "isPrimaryKey": true
      },
      {
        "id": 567,
        "name": "Emp First Name",
        "dataType": "string",
        "isPrimaryKey": false
      },
      {
        "id": 568,
        "name": "Emp Last Name",
        "dataType": "string",
        "isPrimaryKey": false
      }
    ]
  },
  "timestamp": "2025-11-19T11:19:27.382Z"
}
```
